

Subject Index

Volume 65

- Abdominal fat tumor, MRI of, 403
- Adherence to diet, 298S
in sodium restriction, 698S
- Adipose fatty acid composition, to validate dietary record, 1353S(abst)
- Adipose tissue. *See* Body fat
- Adiposity
age and, overweight standards and, 1391
visceral, in children
as marker for later cardiovascular disease, 1887
race and, 1703
- Adolescents
dietary assessment in, 1116S, 1138S, 1297S(abst)
in black population, 1308S(abst)
in female athletes, 1359S(abst)
in Guam, during pregnancy, 1323S(abst)
in Nigeria, 1338S(abst)
in Norway, 1336S(abst)
portions as indicators of, 1338S(abst)
in Warsaw, 1320S(abst)
fat intake by, 1300S(abst)
hypertension in, sodium intake and, 618S
iron deficiency anemia in, in Jamaica, 831, 887
recall of distant diet as, 1316S(abst)
zinc balance in, calcium intake and, 1460
- Africa
children food intake in, from family common pot, 1321S(abst)
dietary assessment in, 1324S(abst)
in children, 1321S(abst)
infection and malnutrition in, in infants, 149
- African American population. *See also* Black population
dietary assessment in, 1346S(abst)
food-frequency questionnaires for, 1340S(abst)
pediatric visceral fat in, 1703
- Age/aging. *See also* Geriatric population
cognition in, nutrition and, 20
energy expenditure and, 895
at introduction of complementary foods to breast-fed infants, lactational
amenorrhea and, 1403
nutritional indexes and, 1721
splanchnic and whole-body leucine metabolism and, 489
- Agricultural chemical intake, 1301S(abst)
- Albumin synthesis, parenteral feeding and (rat), 994, 1078(Editorial)
- Alcohol intake
carotid intima-media thickness and, 1000
heart disease and, 1567
hypertension and, 338S
in Mediterranean population, 1324S(abst)
questionnaire for, 1314S(abst)
- Aluminum absorption (rat), 1446
- Aluminum intake, in postmenopausal women, 803
- Alzheimer disease
Block Health Habits and History Questionnaire in, 1364S(abst)
dietary assessment in, 1307S(abst)
- Amenorrhea, lactational, complementary feeding and, 1403
- American Heart Association Science Advisory, Fish consumption, fish oil,
lipids, and coronary heart disease, 1083
- Americans
fat intake by, 1297S(abst)
food intake patterns of, 1264S
- Amine, heterocyclic aromatic, in food, 1334S(abst)
- Amino acids. *See also specific amino acid*
epinephrine and, 1765
- Aminotransferases, hepatic, coffee diterpenes and, 519
- Ammonia, fecal, resistant starch intake and (Letter), 167, 168
- Amylose intake, breath-hydrogen production and, 1783
- Anemia
delayed umbilical cord clamping and, 425
iron deficiency. *See* Iron deficiency anemia
- Angiotensin-converting enzyme inhibitors, sodium restriction and, 678S
- Anorexia nervosa
muscle function in, refeeding and, 1845
weight gain in, 1034
- Anthelminthic treatment, in preschool children, 1057
- Anthropometry, maternal, infant nutrition and, in Israel, 1731
- Anticonvulsants, in developmentally delayed children, vitamin D and bone
status in, 1042
- Antimetabolites, optic neuropathy and, 1092(Letter), 1093(Letter)
- Antioxidants
atherosclerosis and, 121
cervical dysplasia risk and, 1307S(abst)
in endurance athletes, 1052
in hemodialysis patients, 844
immune homeostasis and, 1901(Letter)
ischemic heart disease and, 1489, 1542(Editorial)
pediatric inflammatory bowel disease and, 1482
in protein-energy malnutrition, in child, 1534
in semiquantitative food-frequency questionnaire, 1298S(abst)
smoking and, 562(Editorial)
- Apolipoprotein E phenotype, blood pressure and, 543
- Appetite control. *See* Satiety
- Arizona food-frequency questionnaire, for eligibility screening,
1310S(abst)
- Arm circumference, as measure of body composition, in children, 1709
- Aromatic amine and aromatic hydrocarbon, heterocyclic and polycyclic, in
food, 1334S(abst)
- Aruba, dietary assessment in, 1360S(abst)
- Ascariasis, iron deficiency anemia and, in Zanzibari children, 153
- Ascorbic acid
as biomarker of smoking-induced oxidative stress, 959
dose-response to, smoking and, 496, 503
healing effects of, 1891
- Aspartame
body weight and, 409
cephalic phase insulin response to, 737
- Asthma, n-3 fatty acid ingestion and, 1011
- Astronaut, energy expenditure in, 4

- Atherosclerosis**
 insulin resistance in
 Editorial, 164
 study of, 79
 lifestyle modification and, 1000
 thiobarbituric acid-reactive substances and antioxidants and, 121
- Atherosclerosis Risk in Communities Study**, 551
- Athletes, antioxidants in**, 1052
- Australia**
 dietary survey in, underreporting on, 1343S(abst)
 nutrition and family medicine in, 1939S
- Australian Market Basket Survey**, 1301S(abst)
- Australian National Nutrition Survey**, 1337S(abst)
- Avitaminosis, biochemical markers of**, 951
- Baby boomers, food-frequency questionnaires for**, 1356S(abst)
- Basal metabolic rate, energy intake and**, 1345S(abst)
- Behavior, high-sucrose diet and, during weight loss**, 908
- Behavioral Risk Factor Surveillance System**, 1210S
- Belgium, nutritional counseling and family medicine in**, 1951S
- Bioavailability of iron**
 in infant cereals, 916, 964
 rare earth elements and, 970
- Biochemical markers**
 of chocolate intake, 1349S(abst)
 in dietary assessment, 1348S
 adipose fatty acid as, 1353S(abst)
 calcium intake as, 1348S(abst)
 carotenoids as, 1350S(abst), 1353S(abst)
 conceptual issues in, 1232S
 energy adjustment and, 1130S
 food-frequency questionnaire validation by, 1348S(abst)
 in INTERSALT study, 1246S
 method of triads and, 1240S
 phyloquinone concentration as, 1351S(abst)
 phytate to zinc ratio as, 1351S(abst)
 plasma vitamin C as, 1297S(abst)
 red blood cell fatty acid as, 1348S(abst), 1351S(abst), 1352S(abst)
 serum carotenoids as, 1353S(abst)
 sex hormones as, 1349S(abst)
 urea nitrogen as, 1353S(abst)
 of fruit and vegetable intake, 1350S(abst), 1353S(abst)
 of smoking-induced oxidative stress, 959
 of vitamin intake, 1349S(abst)
- Biotin deficiency, biotin status indicators in**, 951
- Biotin metabolites, in urine**, 508
- Birth weight, nutrition and growth and**, 1339S(abst)
- Black population. See also African American population**
 body composition in, in young females, 724
 in hemodialysis, antioxidant vitamins and carotenoids in, 844
 iron deficiency anemia in, 831, 887
 plasma 25-hydroxyvitamin D concentration in, 1349S(abst)
- Block Health Habits and History Questionnaire, in Alzheimer disease**, 1364S(abst)
- Blood lipids. See Lipid level in blood**
- Blood pressure. See Hypertension**
- Body composition**
 of children, arm circumference and triceps skinfold and, 1709
 in chronic obstructive pulmonary disease, 88
 energy expenditure and, age and sex and, 895
 in Prader-Labhart-Willi syndrome, 1369, 1540(Editorial)
 of young multiethnic females, 724
- Body fat**
 distribution of
 in anorexia nervosa, 1034
 cardiovascular disease and, 855
 poststarvation hyperphagia and, 717
 in pregnancy, 432
 tumor in, MRI of, 403
- Body mass**
 food and nutrient intake and, 366S
 hypertension and, 338S
 measurement of, 203S
 oral contraceptives and, 419
 smoking and, 374S
- Body mass index, of children, effect of diet and socioeconomic characteristics on**, 1362S(abst)
- Body weight. See also Weight gain; Weight loss**
 aspartame and, 409
 diet and sex and, 2004S
 ideal, estimation of, in malnourished women, 1314S(abst)
 sex hormones and, 1349S(abst)
- Bone disease, vitamin K assessment in**, 883(Editorial)
- Bone mineral density**
 after menopause, caffeine intake and, 1826
 in developmentally delayed children, anticonvulsants and, 1042
 in lactation, 1738
 pediatric diet and, in Saskatoon, 1344S(abst)
 in premenopausal women, nutrition and, 1831
 of young multiethnic females, 724
- Book reviews**
Drug Receptor Subtypes and Ingestive Behaviour, SJ Cooper, PG Clifton, 1575
Handbook of Antioxidants, E Cadenas, L Packer, 579
Handbook of Nutrition in the Aged, 2nd ed, RR Watson, 1904
Long-term Consequences of Early Feeding, J Boulton, Z Laron, J Rey (eds), 172
